

Use Report Completion Instructions

Production Agriculture Monthly Pesticide Use Report (Form 33-017C)

These instructions will assist you in completing this form. The completed forms must be submitted to the agricultural commissioner in the county where the pest control work was performed by the 10th day of the month following the month of application.

- 1-2. Enter the month and year of the pesticide applications.
3. Check this box if all of the pesticide applications were made in a nursery.
4. Enter the Operator Identification Number/Restricted Material Permit Number assigned by the county agricultural commissioner (CAC).
- 5-8. Identify the property operator (grower) and complete the address information.
9. Each commodity/site is assigned a unique identification number of one to eight characters. Enter this number exactly as it was issued by the CAC.
10. Indicate the total planted acres, square feet or units at the treatment site. For pre-plant applications, enter the total acreage, square feet or units to be treated.
11. Indicate the county number. This is available from the CAC.
- 12-14. Indicate the section, township, and range designation for each site that is treated. These designations must be the same as those on your restricted materials permit or the Operator Identification form issued by the CAC. Otherwise, a coordinate map showing the designations must be used to determine the appropriate information. The respective compass points (e.g., "N", "S") should be circled as well.
15. There are only three base and meridians in California. One of the following code letters must be used to complete this section: H-Humboldt; M-Mount Diablo; S-San Bernardino.
17. Enter the commodity/site by common name. Identify the specific type of commodity (e.g., head lettuce, loose leaf lettuce, table grapes, wine grapes). Do not use general terms such as "herbs" "citrus" or "cole crops." **Do not write in the nine-digit boxes of this section; these are "For Official Use Only."**
19. Enter the location of the field treated. Use the system utilized by the CAC to designate the specific property treated.
21. This information is no longer used. Leave this box blank.

22. For each pesticide application, indicate the date and hour it was completed. Use a 24-hour clock or military time (i.e., write 7:00 a.m. as 0700 hours).
23. For each application, report the total acreage treated. For band applications or strip spraying, report the total acreage at the site. For spot spraying or partial applications (e.g., border treatments) indicate only the acreage that was actually treated.
24. Check the method of application that represents each application.
25. Enter the appropriate number to identify a block within a field, if applicable.
26. Each pesticide is assigned an "EPA Regis. No." or "Calif. Reg. No." that appears on the label. Record the entire number including the alpha code (i.e., "AA", "ZA") for each pesticide that is used. Do not use the "EPA Est. No." Spreader stickers, adjuvants, and drift control agents are registered as pesticides in California and must also be reported. Do not report nutrients, fertilizers, buffers, etc., that have no EPA or California Registration Number. Record the number from the label on the container that was used, not a number from a specimen label book.
27. Record the total amount of formulated (packaged) product that was used for each application. Do not report the total mixture after dilution. Circle only one unit of measure (if not on form, write it in this box). If necessary, decimals and fractions may be used.
28. Enter the reentry interval as required by the pesticide label or regulation.
- 29-30. Indicate the rate at which the pesticide was applied per acre (e.g., 1 pound in 100 gallons, 3 pints in 250 gallons, etc.).
31. Write in the name of the pesticide product and the manufacturer as identified on the label. Include the brand or trade name and type of formulation if it is indicated on the label (e.g., Pestkill 30W, NoGro 6E or Mildex SP).

Remember to sign and date the report. If you have any questions or need additional assistance in completing this form, please contact your local CAC.
